INDEPENDENT AUDITOR'S REPORT

JoEl, Inc.
Elizabethtown, Pennsylvania

We have audited the accompanying balance sheet of JoEl, Inc. (d/b/a Simon Candy Company and Pharmaloz) (an S Corporation) as of December 31, 2003, and the related statements of operations and retained earnings, comprehensive income, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of JoEl, Inc. at December 31, 2003, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF ACCOUNTING POLICIES

INCORPORATION

JoEl, Inc. d/b/a Simon Candy Company and Pharmaloz (the Company) was incorporated on June 12, 1973 under the laws of the Commonwealth of Pennsylvania for the purpose of manufacturing hard candy and cough drops. The accompanying financial statements include the results of operations of the Company's two divisions, Simon Candy and Pharmaloz, which is considered to be one operating segment.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CASH EQUIVALENTS

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. For the year ended December 31, 2003, bad debt expense in the amount of \$44,036 was determined and was expensed.

Trade accounts receivable potentially subjects the Company to credit risk. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history and generally does not require collateral.

INVESTMENTS

The Company classifies its marketable debt and equity securities as "available for sale." Securities classified as "available for sale" are carried in the financial statements at fair value. Fair values of equity securities are based on quoted market prices. Realized gains and losses, determined using the specific identification method, are included in earnings and unrealized holding gains and losses are reported as a separate component of stockholders' equity.

(AN S CORPORATION)

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF ACCOUNTING POLICIES (CONT'D)

INVENTORY

Inventory is valued at the lower of cost or market using the first-in, first-out method.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are carried at cost. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period. The cost of maintenance and repairs is charged to income as incurred, whereas significant renewals and betterments are capitalized and deductions are made for retirements resulting from the renewals or betterments.

REVENUE RECOGNITION

Sales are recognized when the product is delivered and customer acceptance is obtained. Sales returns and allowances are immaterial.

SHIPPING AND HANDLING

Shipping and handling are included as part of the price offered to the customer. In all cases, costs related to this revenue are recorded in cost of sales.

COMPREHENSIVE INCOME

In 1998, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 130, "Reporting Comprehensive Income." SFAS No. 130 establishes reporting requirements of comprehensive income and its components. Comprehensive income for the Company consists of net loss and unrealized gains and losses on available for sale securities and is presented in the statement of comprehensive income. Accumulated other comprehensive income is presented as a separate component of equity.

INCOME TAXES

Effective January 1, 1987, the Company elected by unanimous consent of its stockholders to be taxed as an S Corporation under the provisions of the Internal Revenue Code. Under these provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income.

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF ACCOUNTING POLICIES (CONT'D)

ADVERTISING

Advertising costs are expensed within the period in which they are utilized. For the year ended December 31, 2003, advertising expense in the amount of \$3,119 is presented as part of operating expenses.

ART AND DEVELOPMENT COSTS

Art and development costs are costs for printing dies, artwork design, and cutting dies for the candy and cough drop wrappers. These costs are

amortized on a straight-line basis over a period of three years.

IMPAIRMENT

The Company reviews its long-lived assets for impairment on an exception basis whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through future cash flows. If it is determined that an impairment loss has occurred based on the expected cash flows, a loss is recognized in the statement of operations and retained earnings.

BASIS OF PRESENTATION

The financial statements have been prepared by management. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flow, for the periods indicated, have been made.

2. INVESTMENTS

Available for sale securities and their fair values at December 31, 2003 are as follows:

	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Common stock	\$ 48,143	\$ 46,785	\$ (15,788)	\$ 79,140

ACCOUNTANT'S REPORT

Joel, Inc. d/b/a Simon Candy Company and Pharmaloz
Elizabethtown, Pennsylvania

We have reviewed the accompanying balance sheet of Joel Inc. d/b/a Simon Candy Company and Pharmaloz (an S Corporation) as June 30, 2004, and the related statements of operations, comprehensive income, and cash flows for the six months ended June 30, 2004 and 2003, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. All information included in these financial statements is the representation of the management of Joel, Inc. d/b/a Simon Candy Company and Pharmaloz.

A review consists principally of inquiries of Company personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with auditing standards generally accepted in the United States of America, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet of Joel, Inc. as of December 31, 2003, and the related statements of operation and retained earnings, comprehensive income, and cash flows for the year then ended (not presented herein); and in our report dated February 20, 2004, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying balance sheet as of December 31, 2003, is fairly stated, in all material respects, in relation to the balance sheet from which it has been derived.

NOTES TO FINANCIAL STATEMENTS - UNAUDITED

1. SUMMARY OF ACCOUNTING POLICIES

INCORPORATION

Joel, Inc. d/b/a Simon Candy Company and Pharmaloz (the Company) was incorporated on June 12, 1973 under the laws of the Commonwealth of Pennsylvania for the purpose of manufacturing hard candy and cough drops. The accompanying financial statements include the results of operations of the Company's two divisions, Simon Candy and Pharmaloz, which is considered to be one operating segment.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CASH EQUIVALENTS

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

The Company considers accounts receivable to be fully collectible; accordingly, no allowance for doubtful accounts is required. Bad debt expense in the amount of \$0 and \$44,678 for the six months ending June 30, 2004 and 2003 were determined and were expensed.

Trade accounts receivable potentially subjects the Company to credit risk. The Company extends credit to its customers based upon an evaluation of the customer's financial condition and credit history and generally does not require collateral.

INVESTMENTS

The Company classifies its marketable debt and equity securities as "available for sale." Securities classified as "available for sale" are carried in the financial statements at fair value. Fair values of equity securities are based on quoted market prices. Realized gains and losses, determined using the specific identification method, are included in earnings and unrealized holding gains and losses are reported as a separate component of stockholders' equity.

1. SUMMARY OF ACCOUNTING POLICIES (CONT'D)

INVENTORY

Inventory is valued at the lower of cost or market using the first-in, first-out method.

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are carried at cost. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in income for the period. The cost of maintenance and repairs is charged to income as incurred, whereas significant renewals and betterments are capitalized and deductions are made for retirements resulting from the renewals or betterments.

REVENUE RECOGNITION

Sales are recognized when the product is delivered and customer acceptance is obtained. Sales returns and allowances are immaterial.

SHIPPING AND HANDLING

Shipping and handling are included as part of the price offered to the customer. In all cases, costs related to this revenue are recorded in cost of sales.

COMPREHENSIVE INCOME

In 1998, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 130, "Reporting Comprehensive Income." SFAS No. 130 establishes reporting requirements of comprehensive income and its components. Comprehensive income for the Company consists of net loss and unrealized gains and losses on available for sale securities and is presented in the statement of comprehensive income. Accumulated other comprehensive income is presented as a separate component of equity.

INCOME TAXES

Effective January 1, 1987, the Company elected by unanimous consent of its stockholders to be taxed as an S Corporation under the provisions of the Internal Revenue Code. Under these provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income.

1. SUMMARY OF ACCOUNTING POLICIES (CONT'D)

ADVERTISING

Advertising costs are expensed within the period in which they are utilized. For the six months ended June 30, 2004 and 2003, advertising expense in the amount of \$3,599 and \$1,084 is presented as part of operating expenses.

ART AND DEVELOPMENT COSTS

Art and development costs are costs for printing dies, artwork design, and cutting dies for the candy and cough drop wrappers. These costs are amortized on a straight-line basis over a period of three years.

IMPAIRMENT

The Company reviews its long-lived assets for impairment on an exception basis whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable through future cash flows. If it is determined that an impairment loss has occurred based on the expected cash flows, a loss is recognized in the statement of operations.

BASIS OF PRESENTATION

The financial statements have been prepared by management. In the opinion of management, all adjustments necessary for a fair presentation of the financial position, results of operations and cash flows, for the periods indicated, have been made.

UNAUDITED PRO FORMA CONDENSED COMBINED CONSOLIDATED FINANCIAL STATEMENTS

INTRODUCTION

The Quigley Corporation (the "Company"), through its wholly-owned subsidiary, Quigley Manufacturing Inc. ("QMI") purchased certain assets of JoEL, Inc. ("JoEL") for approximately \$5.1 million on October 1, 2004, which includes payments of \$4.1 million in cash, \$3.0 million of the cash required was financed through a term loan, and the issuance of \$1.0 million of the Company's stock, or 113,097 shares.

The acquisition of these assets, includes inventory, land, buildings, machinery and equipment of two manufacturing facilities and the assumption of accrued vacation wages of approximately \$70,000 of the former employees of JoEL that are now employees of QMI.

JoEL is a FDA approved contract manufacturer of lozenges and other candy food products and has been the exclusive manufacturer of the Company's Cold-Eeze(R) lozenge since its launch in 1995. JoEL has also manufactured private label hard candies, lozenges and throat drops for other prominent Over-the-Counter products companies.

The Company is engaged in the development, manufacturing, and marketing of homeopathic and health products that are being offered to the general public and the research and development of potential prescription products. The Company is organized into three business segments which are Cold Remedy, Health and Wellness, and Ethical Pharmaceutical. For the historical fiscal periods presented, the Company's revenues have come from the Company's Cold Remedy business segment and the Health and Wellness business segment.

The pro forma information set forth includes the condensed combined consolidated balance sheet as of June 30, 2004 and the condensed combined consolidated statements of operations for the year ended December 31, 2003 and for the six-months ended June 30, 2004 of the Company and JoEL, which includes the elimination of intercompany transactions and adjustments necessary to reflect preliminary current fair values of the assets acquired, loans and liabilities assumed with their related effects in the incomes statements presented.

THE QUIGLEY CORPORATION
 NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The Condensed Combined Consolidated Financial Statements include the accounts of the Company and its wholly owned subsidiaries.

On October 1, 2004, the Company acquired substantially all of the assets of JoEL, Inc, including inventory, land, buildings, machinery and equipment of two manufacturing facilities located in Lebanon and Elizabethtown, Pennsylvania for approximately \$5.1 million, which includes payments of \$4.1 million in cash and \$1.0 million of the Company's common stock. The acquisition is accounted for by the purchase method of accounting and accordingly, the operating results will be included in the Company's consolidated financial statements from the date of acquisition.

The Company funded the \$4.1 million cash portion of the purchase price with proceeds from a commercial loan and through its current working capital. To

satisfy the common stock component of the purchase price, the Company issued 113,097 shares of its common stock to the stockholders of JoEL. Pursuant to the Agreement, the number of shares to be issued was determined by the average closing price of the Company's common stock for the period September 23, 2003 to September 23, 2004. The fair value of \$8.64 per share was determined by averaging the closing price for four business days before and after the closing date of October 1, 2004.

The financing portion includes a loan obligation in the amount of \$3.0 million payable to PNC Bank, N.A. and is secured by mortgages on real property located in each of Lebanon, Pennsylvania and Elizabethtown, Pennsylvania and was used to finance the majority of the cash portion of the purchase price. The Company can elect interest rate options of either the Prime Rate or LIBOR plus 200 basis points. The loan is payable in eighty-four equal monthly principal payments of \$35,714 commencing November 1, 2004, which such amounts payable are reflected in the pro forma balance sheet as current maturities of long term debt amounting to \$428,571 and long term debt amounting to \$2,571,429.

Accordingly, the pro forma information and corresponding adjustments of the aforementioned transaction are made solely for the purpose of providing unaudited pro forma condensed combined consolidated financial statements.

The Company utilizes an asset and liability approach for income taxes, which requires the recognition of deferred tax assets and liabilities for the future tax consequences of events that have been recognized in the Company's financial statements or tax returns. In estimating future tax consequences, the Company generally considers all expected future events other than enactments of changes in the tax law or rates. Until sufficient taxable income to offset the temporary timing differences attributable to operations and the tax deductions attributable to option, warrant and stock activities are assured, a valuation allowance equaling the total deferred tax asset is being provided.

2. PURCHASE PRICE

The preliminary purchase price allocation for the net assets acquired was also adjusted for the fair market value of the Company's stock issued in the transaction. The fair market value of the stock was determined by averaging the closing price for four business days before and after the closing date of October 1, 2004. Additionally, the preliminary purchase price allocation for the net assets acquired was also adjusted for \$70,000 of vacation liabilities assumed, which was calculated by multiplying unused earned hours at September 30, 2004 times the hourly rate of each former JoEL employee, and other capitalized transaction costs. The purchase price allocation is preliminary since additional costs associated with the acquisitions have not yet been determined and audited.

The following is the preliminary purchase price allocation for the asset purchase:

The Company's issued 113,097 shares of its stock at \$8.64 per share, net of transaction costs of \$51,000	\$926,158
Cash paid to JoEL, Inc. for net assets acquired	4,100,000
Transaction costs paid by the Company	114,671

Total purchase price	\$5,140,829
	=====

Fair value of assets acquired:	Allocated Excess Fair Value	Unallocated Excess Fair Value
	-----	-----
Inventory	\$900,000 *	\$900,000
Land	382,155 *	528,000
Building & improvements	971,312 *	1,342,000
Machinery and equipment	2,899,460 *	4,006,000
Furniture and fixtures	57,902 *	80,000
	-----	-----
Total fair value of assets acquired	5,210,829	6,856,000
Vacation pay liability assumed of former JoEL employees	(70,000)	(70,000)
Excess of net fair value over purchase price*		(1,645,171)
	-----	-----
Total net assets acquired	\$5,140,829	\$5,140,829
	=====	=====

* The sum of the assets acquired and liabilities assumed exceeded the cost of the acquired assets (excess over cost of excess). This excess is allocated as a pro rata reduction of the amounts that otherwise would have been assigned to all of the long-lived acquired assets.

The Company uses a combination of straight-line and accelerated methods in computing depreciation for financial reporting purposes. The provision for depreciation reflected in the pro forma statements has been computed in accordance with the following ranges of estimated asset lives: building and improvements - twenty years; machinery and equipment - three to seven years; and furniture and fixtures - seven years.

Depreciation expense included in the pro forma Condensed Combined Consolidated Financial Statements for the year ended December 31, 2003 and for the six-month period ended June 30, 2004 were \$1,032,829 and \$ 507,824, respectively.

3. PRO FORMA ADJUSTMENTS

Adjustments are included in the column under the heading "Pro Forma Adjustments."

- a. To eliminate historical assets, liabilities and equity not included as part of acquisition.
- b. To reflect the allocated cost of the net assets acquired at their fair market value for property, equipment and inventory, including cash expended to JoEL and others for transaction costs or liabilities assumed or incurred and securities issued as payment for the assets purchased. The preliminary fair value of the long-lived assets were based upon values as determined by accredited independent third parties, which such preliminary fair value determinations were completed by August 2004, and will be updated as of October 1, 2004.
- c. To reflect the incurrence of a loan obligation in the amount of \$3.0 million payable to PNC Bank, N.A., which is secured by mortgages on real property, payable in eighty-four equal monthly principal payments of \$35,714 commencing November 1, 2004 and with interest rate options of either the Prime Rate or LIBOR plus 200 basis points. Amounts payable are reflected in the pro forma balance sheet as current maturities of long-term debt amounting to \$428,571 and long-term debt amounting to \$2,571,429.
- d. To eliminate intercompany profit in the Company's historical inventory.
- e. To eliminate intercompany sales.
- f. To eliminate intercompany items that are reductions for cost of products sold of \$2,585,971 and the net change in profit in inventory of \$675,115; and to reflect incremental depreciation costs that are increases of \$88,945.
- g. To reflect incremental depreciation costs of \$4,681 and adjust for life insurance items not acquired as part of the acquisition of \$65,371.
- h. To eliminate intercompany miscellaneous income of \$46,302 and to reflect incremental interest expense costs of \$18,904. Additionally, a 1/8 fluctuation in the interest rate would approximate \$12,434.
- i. To eliminate intercompany items that are reductions for cost of products sold of \$1,396,507 and to reflect other items that are increases for the net change in profit in inventory of \$122,025; and incremental depreciation costs of \$47,317.
- j. To reflect incremental depreciation costs of \$2,491 and adjust for life insurance items not acquired as part of the acquisition of \$23,543.
- k. To eliminate intercompany miscellaneous income of \$2,121 and to reflect incremental interest expense costs of \$10,508. Additionally, a 1/8 fluctuation in the interest rate would approximate \$5,662.

EARNINGS PER SHARE

Basic earnings per share ("EPS") excludes dilution and is computed by dividing income available to common stockholders by the weighted - average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that shared in the earnings of the entity. Diluted EPS also utilizes the treasury stock method which prescribes a theoretical buy back of shares from the theoretical proceeds of all options and warrants outstanding during the period. Since there is a large number of options and warrants outstanding, fluctuations in the actual market price can have a variety of results for each period presented.

A reconciliation of the applicable pro forma changes and numerators and denominators of the income statement periods presented is as follows (millions, except earnings per share amounts):

	Year Ended December 31, 2003			Six-Months Ended June 30, 2004		
	Income	Shares	EPS	Loss	Shares	EPS
Basic EPS (historical)	\$ 0.7	11.5	\$ 0.06	(\$ 1.7)	11.5	(\$ 0.15)
