**PRESS RELEASE****PROPHASE LABS, INC. ANNOUNCES PRELIMINARY RESULTS OF ITS TENDER OFFER**

DOYLESTOWN, PA — (Globe Newswire – September 26, 2017) — ProPhase Labs, Inc. (NASDAQ: PRPH, www.ProPhaseLabs.com), a diversified natural health medical science company (“ProPhase”), announced today the preliminary results of its tender offer to purchase up to 4,000,000 shares of its common stock at a price of \$2.30 per share, which expired at 5:00 p.m., New York City time, on September 25, 2017.

Based on the preliminary count by American Stock Transfer & Trust Company, the Depository for the tender offer, an aggregate of 5,919,665 shares of common stock were properly tendered and not withdrawn, including 139,892 shares that were tendered through notice of guaranteed delivery.

In accordance with the terms and conditions of the tender offer and based on the preliminary count by the depository, ProPhase expects to accept for payment 4,323,335 shares properly tendered and not withdrawn before the expiration date, at an aggregate cost of approximately \$9.9 million, excluding fees and expenses relating to the tender offer. The shares of common stock expected to be purchased include 4,000,000 shares that the Company initially offered to purchase for approximately \$9.2 million and 323,335 additional shares that the Company has elected to purchase for approximately \$744,000 pursuant to its right to purchase up to an additional 2% of its outstanding shares without amending or extending the tender offer. The shares expected to be purchased represent approximately 26.7% of ProPhase’s common stock issued and outstanding as of September 25, 2017.

Because more than 4,000,000 shares of common stock have been properly tendered and not withdrawn, the offer is oversubscribed, and ProPhase expects only to accept for purchase, on a pro rata basis, approximately 73.0% of the shares validly tendered (assuming all shares tendered through guaranteed delivery procedures are delivered under the terms of the offer), based on the total number of shares reported to be tendered and not withdrawn prior to the expiration of the offer and accounting for “odd lot” priority and the conditional tender provisions of the offer. This preliminary proration factor is subject to change based on, among other things, the number of tendered shares which satisfy the guaranteed delivery procedures.

The proration factor is based on the assumption that all shares tendered through notice of guaranteed delivery will be delivered within the prescribed two trading day settlement period. The final proration factor will be announced following the expiration of the guaranteed delivery period and the completion by the depository of the confirmation process. To the extent shares tendered through notice of guaranteed delivery are not delivered within the prescribed two trading day settlement period, the proration factor may differ from the preliminary amount indicated above. Payment for the shares accepted for purchase pursuant to the tender offer, and the return of all other shares tendered and not purchased, will occur promptly thereafter. As previously disclosed, ProPhase will fund the purchase of shares pursuant to the tender offer, including related fees and expenses, from its available excess cash on hand.

The Information Agent for the tender offer is MacKenzie Partners, Inc. For questions and information, please call the Information Agent toll free at 1-800-322-2885.
