(Zip Code)

Registrant's telephone number, including area code: **(215) 345-0919**

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the Company under any of the following provisions (see General Instruction A.2. below):

- ☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- ☐ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- ☐ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- ☐ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities Registered Pursuant to Section 12(b) of the Exchange Act:

Title of Each Class	Trading Symbol	Name of Each Exchange on Which Registered
Common Stock, par value \$0.0005	PRPH	Nasdaq Capital Market

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Item 2.02 Results of Operations and Financial Condition.

On November 12, 2021, ProPhase Labs, Inc. (the "Company") issued a press release announcing its financial results for the three months ended September 30, 2021. A copy of the press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K.

Item 7.01 Regulation FD.

As previously announced, the Company will conduct a conference call today, Friday, November 12, 2021 at 11:00 a.m. (Eastern Time) to discuss its financial results for the third quarter ended September 30, 2021.

The information included in Items 2.02 and 7.01 of this Current Report on Form 8-K and Exhibit 99.1 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be incorporated by reference in any registration statement filed under the Securities Act of 1933, as amended, unless specifically identified therein as being incorporated by reference therein.

Item 9.01 Financial Statements and Exhibits.

**ProPhase Labs Announces Financial Results
for the Three Months Ended September 30, 2021**

Company to hold a conference call November 12, 2021 at 11:00AM ET

Garden City, NY – November 12, 2021 (GLOBE NEWSWIRE) – ProPhase Labs, Inc. (NASDAQ: PRPH), a diversified biotech and genomics company, today reported its financial and operational results for the three months ended September 30, 2021.

Financial highlights for the quarter ended September 30, 2021 include the following:

- Total revenue of \$9.5 million for the quarter ended September 30, 2021, as compared to \$3.8 million for the quarter ended September 30, 2020, an increase of approximately 150%.
- 57,000 diagnostics tests were performed in the quarter ended September 30, 2021.
- Net loss of \$4.0 million, or \$(0.26) per share, for the quarter ended September 30, 2021, as compared to net loss of \$0.6 million, or \$(0.05) per share, for the quarter ended September 30, 2020.
- Adjusted EBITDA of \$(1.3) million for the quarter ended September 30, 2021 as compared to adjusted EBITDA of \$(0.1) million for the quarter ended September 30, 2020.
- Cash, cash equivalents and marketable securities balance of \$22.9M and net working capital of \$34.0M at September 30, 2021.

Corporate highlights for the quarter ended September 30, 2021 and subsequently include the following:

- Acquired Nebula Genomics, Inc., a privately owned personal genomics company, for aggregate price of \$14.6 million.
- Nebula Co-Founder and Renowned Harvard Scientist, George Church, Ph.D., to Spearhead ProPhase Labs New Scientific Advisory Board.
- Presented at five investor conferences, including LD Micro, Benzinga Health Care Small Cap, H.C. Wainwright Global, SNN Network Summer, and the Q3 Investor Summit.
- Authorized the repurchase of up to \$6M in ProPhase common stock. As of November 10, 2021, the Company has repurchased 140,769 shares at an aggregate amount of \$791,000 or \$5.62 per share

Ted Karkus, ProPhase's Chief Executive Officer, commented, "As we recently announced in an update to our shareholders on October 13th, while the decline in the COVID-19 positivity rates continued through mid-Q3, it rebounded significantly in late August and September. As a result, our testing levels have recently increased significantly. Our testing volumes in just the month of October alone surpassed the entire Q3 testing volumes. We anticipate that this surge will continue through the remainder of Q4 based in part on our expanding customer base, including municipal contract wins and the opening of schools and other high-traffic venues, many of which will require either vaccinations or regular COVID-19 testing to gain access.

"For the first nine months of the year, although we recognized a net loss, our adjusted EBITDA was actually positive. We also anticipate a very strong fourth quarter. We believe that the winter months will bring about increased testing based on the winter flu season gearing up, for which there may be increased sensitivity to distinguish between the two viruses. We are also building a sizable customer base of independent pharmacies and concierge services that we anticipate will provide consistent and growing testing revenues for our diagnostics business."

"We are also proceeding as planned with our integration of recently-acquired Nebula Genomics into our ProPhase Precision Medicine division. We are confident that combining Nebula Genomics' comprehensive genomic testing with our CLIA-certified lab capabilities will lead to faster turnaround times and lower price points, driving additional demand. We also plan to offer low-pass genomic testing at significantly lower price points. This will allow us to leverage our distribution network of more than 40,000 food, drug, and mass retail stores to further expand direct-to-consumer and big-box retail distribution of Nebula's genomic sequencing products and services. Each of these initiatives could significantly grow sales as we look forward to 2022," said Mr. Karkus.

"The Company continues to be active in our recently announced share repurchase program, which reflects the Board of Directors' confidence in both our current business momentum and the future opportunities before us."

"We are also continuing to evaluate and pursue additional strategic and synergistic acquisitions to build our precision medicine and genomics research capabilities with the help of world-renowned genomics expert, George Church, co-founder of Nebula Genomics and advisor to ProPhase," concluded Mr. Karkus.

Financial Results

Quarter Ended September 30, 2021

For the three months ended September 30, 2021, net revenue was \$9.5 million as compared to \$3.8 million for the three months ended September 30, 2020. We recognized higher net revenue for the three months ended September 30, 2021 primarily as a result of an increase of \$7.1 million in revenue related to our new diagnostic services business, which was offset by a decrease of \$2.5 million in customer orders from our consumer products business as a result of the demand and inventory levels of third party contract manufacturing customers.

Cost of revenues for the three months ended September 30, 2021 was \$5.5 million as compared to \$2.8 million for the three months ended September 30, 2020. For the three months ended September 30, 2021 and 2020, we realized a gross margin of 42.0% and 27.1%, respectively. The increase in gross margin from the prior period is principally due to increased margins generally associated with our new diagnostic services business.

Diagnostic expenses for the three months ended September 30, 2021 were \$1.5 million compared to no diagnostics expenses for the three months ended September 30, 2020. The \$1.5 million in diagnostic expenses for the three months ended September 30, 2021 was comprised of network providers expenses associated with our new diagnostic services business.

Sales, general and administration expenses for the three months ended September 30, 2021 were \$5.9 million as compared to \$1.6 million for the three months ended September 30, 2020. The increase of \$4.3 million in general and administration expenses was principally related to growth in personnel expenses and professional fees associated with our new diagnostic services business.

As a consequence of the effects of the above, net loss from continuing operations for the three months ended September 30, 2021 was \$4.0 million, or \$(0.26) per share, as compared to the net loss from continuing operations for the three months ended September 30, 2020 of \$0.6 million, or \$(0.05) per share. Net income from discontinued operations was \$161,000, or \$0.01 per share, for the three months ended September 30, 2020.

Our aggregate cash and cash equivalents, restricted cash and marketable debt securities as of September 30, 2021 was \$22.9 million as compared to \$8.5 million at December 31, 2020. Our working capital was \$34.0 million and \$9.6 million as of September 30, 2021 and December 31, 2020, respectively. The increase of \$14.4 million in our cash and cash equivalents, restricted cash and marketable debt securities balance for the nine months ended September 30, 2021 was principally due to our receipt of aggregate net proceeds of \$40.6 million from the issuance of common stock and warrants in a registered direct offering and public offering, and \$10.7 million from the sale of marketable debt securities, offset by (i) capital expenditures of \$4.2 million, (ii) cash dividend payments of \$4.5 million, (iii) issuance of a promissory note of \$1.0 million, (iv) payment of \$9.1 million related to business acquisition, and (v) cash used in operations of \$9.0 million.

Conference Call and Webcast Details

Management will host a conference call at 11:00 AM ET today, November 12, 2021, to review financial results and provide an update on corporate developments. Following management's formal remarks, there will be a question-and-answer session.

Participants can register for the conference call by navigating to: <https://dprester.com/sreg/10161532/ef2e0ef568>

Please note that registered participants will receive their dial in number upon registration and will dial directly into the call without delay. Those without internet access or unable to pre-register may dial in by calling: 1-866-777-2509 (domestic), or 1-412-317-5413 (international). All callers should dial in approximately 10 minutes prior to the scheduled start time and ask to be joined into ProPhase Labs call.

The conference call will be broadcast live and available for replay at <https://services.choruscall.com/mediaframe/webcast.html?webcastid=ddkWfCfc> and via the investor relations section of the Company's website at www.ProPhaseLabs.com.

A webcast replay of the call will be available approximately two hours after the end of the call at the above links. A telephonic replay of the call will be available and may be accessed by calling 1-877-344-7529 (domestic) or 1-412-317-0088 (international) and using access code #10161532.

About ProPhase Labs

ProPhase Labs (Nasdaq: PRPH) ("ProPhase") is a diversified biotech and genomics company that seeks to leverage its CLIA lab services to provide whole genome sequencing and research direct to consumers and build a genomics data base to be used for further research. The Company continues to provide traditional CLIA molecular laboratory services, including COVID-19 testing. ProPhase Precision Medicine, Inc. focuses on genomics testing technologies, a comprehensive method for analyzing entire genomes, including the genes and chromosomes in DNA. The data obtained from genomic testing can help to identify inherited disorders and tendencies, help predict disease risk, help identify expected drug response, and characterize genetic mutations, including those that drive cancer progression.

ProPhase Diagnostics offers a broad array of clinical diagnostic and testing services at its CLIA certified laboratories. ProPhase Diagnostics serves patients who may have SARS-CoV-2 (COVID-19) through both saliva and nasal swab methods. Critical to COVID testing, results are provided in under 24 hours. ProPhase Diagnostics also offers PCR (polymerase chain reaction) testing for Influenza A and B and RSV; as well as antigen and antibody/immunity tests to broaden its COVID-19 testing beyond RT-PCR testing.

ProPhase Global Healthcare, Inc. was formed to seek to expand the Company's SARS-CoV-2 (COVID-19) testing into other countries and to pursue additional healthcare-related initiatives.

ProPhase Labs has decades of experience researching, developing, manufacturing, distributing, marketing, and selling OTC consumer healthcare products and dietary supplements, including dietary supplements under the TK Supplements® brand. ProPhase actively pursues strategic investments and acquisition opportunities for other companies, technologies, and products. For more information, visit www.ProPhaseLabs.com.

Forward Looking Statements

Except for the historical information contained herein, this document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our strategy, plans, objectives and initiatives, including statements regarding our expectations with respect to Q4 COVID-19 testing revenues, our goal to build a sizable customer base of independent pharmacies that will provide consistent and growing testing revenues for our diagnostics business, our plans to provide genomic testing with faster turnaround times and lower price points resulting in increased demand, our ability to leverage our distribution network to expand direct-to-consumer and big-box retail distribution of Nebula's genomic sequencing products and services, and our ongoing efforts to evaluate and pursue additional strategic and synergistic acquisitions to build our precision medicine and genomics research capabilities. Management believes that these forward-looking statements are reasonable as and when made. However, such forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause actual results to differ materially from those projected in the forward-looking statements. These risks and uncertainties include but are not limited to general economic conditions, the scale, scope and duration of the COVID-19 pandemic, consumer demand for our COVID-19 testing and other lab processing services, challenges relating to entering into new business lines, the competitive environment, our failure to obtain and maintain necessary regulatory approvals, our ability to continue to ramp up our labs' testing capacity and execute on our business plan, and the risk factors listed from time to time in our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and any other SEC filings.

Non-GAAP Financial Measure and Reconciliation
(in thousands)
(unaudited)

In an effort to provide investors with additional information regarding our results of operations as determined by accounting principles generally accepted in the United States of America ("GAAP"), we disclose certain non-GAAP financial measures. The primary non-GAAP financial measure we disclose are EBITDA and Adjusted EBITDA.

We define EBITDA as net income (loss) before net interest expense, income taxes, depreciation and amortization. Adjusted EBITDA further adjusts EBITDA by excluding acquisition costs, other non-cash items, and other unusual or non-recurring charges (as described in the table below).

We use EBITDA and Adjusted EBITDA internally to evaluate and manage the Company's operations because we believe they provide useful supplemental information regarding the Company's ongoing economic performance. We have chosen to provide this information to investors to enable them to perform more meaningful comparisons of operating results.

The following table sets forth the reconciliations of EBITDA and Adjusted EBITDA excluding other costs to the most comparable GAAP financial measures (in thousands):

	For the three months ended		For the nine months ended	
	September 30, 2021	September 30, 2020	September 30, 2021	September 30, 2020
GAAP net loss ⁽¹⁾	\$ (3,978)	\$ (408)	\$ (4,316)	\$ (1,147)
Interest, net	65	2	339	(12)
Depreciation and amortization	926	3	2,044	13
EBITDA	(2,987)	(403)	(1,933)	(1,146)

Acquisition costs ⁽²⁾	674	-	674	-
Share-based compensation expense	934	283	2,438	679
Non-cash rent expense ⁽³⁾	72	-	443	-
Adjusted EBITDA	<u>\$ (1,307)</u>	<u>\$ (120)</u>	<u>\$ 1,622</u>	<u>\$ (467)</u>

⁽¹⁾ We believe that net income (loss) is the financial measure calculated and presented in accordance with GAAP that is most directly comparable to EBITDA and Adjusted EBITDA. EBITDA and Adjusted EBITDA measure the Company's operating performance without regard to certain expenses. EBITDA and Adjusted EBITDA are not presentations made in accordance with GAAP and the Company's computation of EBITDA and Adjusted EBITDA may vary from others in the industry. EBITDA and Adjusted EBITDA have important limitations as analytical tools and should not be considered in isolation or as substitutes for analysis of the Company's results as reported under GAAP.

⁽²⁾ Transaction cost related to the Nebula acquisition.

⁽³⁾ The non-cash portion of rent, which reflects the extent to which our GAAP rent expense recognized exceeds (or is less than) our cash rent payments. For newer leases, our rent expense recognized typically exceeds our cash rent payments, while for more mature leases, rent expense recognized is typically less than our cash rent payments.
